STATEMENT

"There are no rusty swords as Jehovah's army fights the darkness"

Blacklisted — *Stop the blacklisting* of Alaskans from jobs and business opportunities! They have gotten away with it for years.

Bizarre IRS Tax Penalties — After this November election, the IRS plans to collect all past due debts. Thousands have been charged with fantastic penalties and outrageous interest rates. Many face impoverished bankruptcy. Hold your tax conferences in your Senator's offices, and the tax experts on my staff will guide your case to a reasonable settlement. What better use for the offices and tax staff!

Your Personal Ambassador — I hope that every Alaskan will consider me their own Personal Ambassador to the federal bureaucracy . . . for all problems! Currently, they are playing games with your lives!

Military Pensions — Soon, over half a million career military will be forced out. They don't want to pay your pensions. I guarantee an endless Senate filibuster to insure your pensions. Besides a new G.I. Education Bill, those forced out before their enlistments end, must receive a settlement to ease the transition to civilian life.

Michael Beasley Supports:

- Senior citizens programs, with new plans for home care.
- Worldwide ban on driftnets to preserve Alaskan fisheries.
- Tax deductions for college and advanced education.
- Alaskan oil exports.
- Improved timber harvest and employment.
- Expand and revitalize our ferry system.

"Liberty lies in the hearts of men and women. When it dies there, no constitution, no law, no court can save it."

STATEMENT

My goal — To work with you to secure federal policies providing sound economic development and more jobs in Alaska. Protection of Alaska's natural beauty and environment, improved transportation and communications, and providing a drug-free, quality life for all Alaskans, young and old, are high priorities.

I've supported ANWR leasing, the gasline, and visitor and conservation funding in parks and refuges. I've fought *against* unfair treatment of timber and mining ventures and *for* comprehensive oil spill prevention legislation and stronger Alaska fishery management. At my request, Congress and the United Nations have moved to eliminate driftnets.

We will reduce defense spending without jeopardizing our national security and reorder spending priorities to meet educational, health, environmental, and veterans' needs without overburdening taxpayers. I've worked to curb wasteful spending but still obtain money for essential Alaska needs.

We must work to end federal management of fish and wildlife in Alaska. Our lifestyle cannot survive in an over-regulated society. I am opposed to government intrusion into our lives.

Alaskans, particularly women, face difficult challenges providing for their children and parents. Alaska family problems — particularly in rural areas — are mounting. Drugs and alcohol threaten our children's future. More than ever, we must come together to help one another and protect the rights and opportunities of each Alaskan. Otherwise, non-Alaskans will shape our destiny.

I am honored to represent you. I ask for your vote with my pledge to work to protect all the benefits of Statehood. Thank you for your continued support.

STATEMENT

As an educator and as the mayor of Valdez, I have personally experienced the pain we suffer when we haven't done our homework, we don't take our responsibilities seriously and we aren't able to negotiate effectively on our own behalf.

What we learned from the oil spill must be used to make better decisions in the future. I can use my 20 years in Alaska to help make better decisions in Congress.

Economy/Environment — Good business includes good environmental policy. Economic development must provide sustainable levels of activity and sound environmental planning.

A strong economy depends on keeping our work force employed; resource development must mean more than simply exporting raw materials.

Our world-class fisheries are a renewable resource to protect and nourish with continuing research and enhancement.

Social Issues — We are fortunate to live within a diverse population; such diversity provides us with a rich life. Respect for our cultural differences is in our mutual interests.

Each woman has the right to make the most personal and difficult decisions affecting pregnancy without government interference.

Effective Representation — The federal government frequently makes decisions for Alaska that ignore our own laws and our own wishes.

As your Congressman I will fight hard for your interests in a mature, positive voice, well-prepared to debate the merits of the issues and able to negotiate in good faith.

STATEMENT

As lieutenant governor, I will bring your government closer to you by opening its process. Regulation review and certification as well as managing a fair and open election system are just part of my goals.

Despite our open meeting laws, previous administrations and legislatures have circumvented these laws and continue much of the business of government behind closed doors. I pledge to work toward a true government by practicing an open cabinet form of administration.

The people of Alaska are the sovereigns of this state; not the elected officials or bureaucrats that run our government. The government is for the people, not vice versa.

I have a 40-year history of being a team player, and I will work with the governor to make government more accessible to you.

For the past 20 years, our state has pursued a reckless policy of spending our state wealth on government services. Wealth is different from income. Our royalty oil is not income, but is rather a non-renewable part of our asset base. It is a wealth that belongs to future Alaskans. Our duty as stewards to our future generations requires that we invest this wealth, not spend it on ourselves through government programs.

I will bring a new attitude toward the office of lieutenant governor. I will do everything in my power to make the future bright for all of us, as well as for future generations of Alaskans.

STATEMENT

When I listen to Alaskans who are concerned about our State, I hear the same message time and time again: Alaskans want strong leadership — a governor and lieutenant governor who will move the State forward. They want leaders who understand the challenges facing the State, who have a sincere appreciation for the private sector's ability to create jobs and who can set the direction for the State well into the next century. Arliss Sturgulewski and I are that team.

From Creek Street in Ketchikan to the Arctic, a lack of leadership in the governor's office has left Alaskans a legacy of fiscal insanity, an unprecedented federal intrusion in fish, wildlife and land management, a rollercoaster economy shoving our communities into tailspins, incomprehensible statistics on drug and alcohol abuse and a system which rewards back room politics and political deal making.

The system can change and together we can make it happen. There is no greater pioneering spirit than in Alaska. We are fortunate: Our resource wealth is the envy of the entire nation. We are blessed with a rich, strong culture and youthful energy. Our compassionate spirit always places those in need in the front of the line for State services.

When times are tough, Alaskans pull together. They stand united with one voice. Arliss and I can build upon our State's strengths and stand prepared to lead Alaska into the next decade.

Please join Arliss and me for a fresh start for Alaska's future.
