STATEMENT:

? CAMPAIGN PROMISES ?

I KEEP MINE!

In 1984 and 1986 in this publication, I promised you that I would fulfill specific goals, such as, the funding for the alternate By-Pass, the completion of the Ferry Maintenance facility, money for hatcheries, i.e. Crystal Lake and Ketchikan. Help for our fisheries and timber industries. I promised to work for long term stable funding for education. It is now in place and for the first time in the State's history, we had early funding of education.

In 1988-1990:

- I pledge to you that economic stability and jobs will be my top priority.
- To further improve education funding and fight for forward funding.
- To revitalize our Ferry system and improve service to **Alaskans**.
- To complete the electric intertie of Tyee and Swann Lake and further reduce the cost of electricity.
- To be a member of the House Majority.
- To fight for a drug free environment for our children.
- To establish more child care and day care facilities for working parents.
- To assure a continued place in our lives for the arts, native culture and protection of our unique Alaskan lifestyle.

STATEMENT:

The Sixteenth Alaska Legislature will be facing many of the same problems as the Fifteenth Legislature faced. Oil prices are by no means stable. The state budget is still larger than many would prefer to see it. There will be the usual battles at the end of the session to balance expectations with available revenues. I have observed and participated in the legislative process in Juneau for many years and I think I have much to contribute.

As your Representative, I will pledge to work toward:

- A law making possession of marijuana illegal
- Equitable education funding
- Support for the present fishing, timber, mining and tourism industries
- Strengthening the Region's economy
- Adequate ferry service for the people of Southeast

The future of Alaska rests with her people. I will never lose sight of that. I don't pretend to have all the answers, but I will work hard, do my homework, listen carefully, and then make the decisions that best reflect the needs of my District and the State of Alaska.

STATEMENT:

State Government:

I want to dispel the notion that it's "them" (government) versus "us." Good government derives power from the people. I've learned one person can make a difference.

Economic Development:

Profit is not an obscene word. We must create a climate where enterprise is rewarded and new ventures encouraged.

Jobs:

Hard Work deserves good pay with **all** people having fair chances at jobs in safe workplaces.

Fisheries:

We must attempt to produce the largest fish runs possible, being very cautious regarding new production technologies. The Legislature has no business being in the allocation process.

Education:

Let's make Alaska's schools the best in the nation. Funding must provide efficient and effective instruction. Our children are our link to the '90s and beyond.

Health and Social Care:

I want to solicit the best minds possible to address the problems of health insurance for Alaskans. We're in this together. A person suffering from abuse or want, or a person who abuses drugs, alcohol or other people, affects all our lives.

Timber/Other Resources:

These treasures are vital for jobs and economic health. They can be developed responsibly.

Environment:

I live here because of the breathtaking and inspiring surroundings. We must preserve this heritage, and can do so without "locking it up."

Arts:

A small investment here can yield big dividends in improving our quality of life.

Transportation:

Our ferry system carries the lifeblood of our economy. We must allow no slashing of this enterprise. Our air transport system must be kept healthy.

EDUCATION:

High School—Sitka High School, Class of 1943

MILITARY SERVICE: U.S. Navy, 37 months, QM 2/C

POLITICAL AND GOVERNMENT POSITIONS: Sitka Public Utilities Commission; Sitka City Council; Borough Assemblyman; Mayor of Sitka; Alaska House of Representatives (10 years); Alaska State Senate (8 years); U.S. Commissioner, International Pacific Halibut Commission.

SERVICE ORGANIZATION(S) MEMBERSHIP: American Legion (PDC); Veterans of Foreign Wars; Alaska Native Brotherhood, Camp #1; Elks; Moose; Masons.

SPECIAL INTERESTS: Hunting, fishing, boating, and enjoying the natural beauty of Southeast Alaska.

STATEMENT:

Senate District B stretches from the communities of Yakutat, Haines, and Skagway in the north, south to Metlakatla, embracing all of Prince of Wales Island. The communities in the district are geographically and culturally distinct, yet their residents share common concerns, both economic and social.

Protecting our renewable natural resources and fostering the health of the fishing, forest products, mining and visitor industries are essential if we are to develop a strong economic base in Southeast Alaska.

A portion of our non-renewable resource wealth must be used to improve the quality of life for all Alaskans, and a promising future for the next generation. This includes offering good public education, and meeting public health and safety needs. It includes providing support for senior citizens' services and child care. It includes addressing the problems of domestic violence, alcohol and drug abuse, and suicide, trends that have caused great misery and hardship, and that we must reverse.

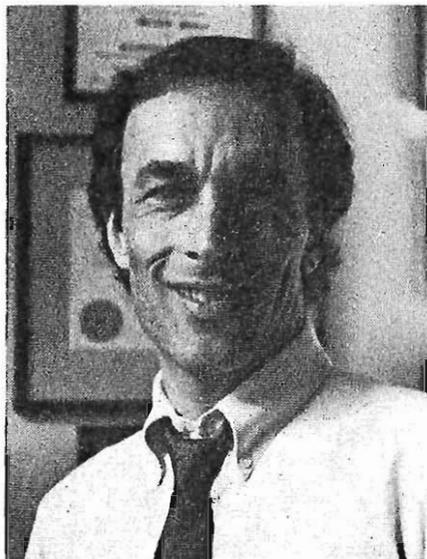

Part of the solution to these problems lies in developing healthy local economies which will offer employment, business opportunities, hope and pride to community residents. Capital improvement funds devoted to water and sewer projects, power generation, roads, docks, and other basic needs will provide infrastructure for economic development.

Wise management of our natural resources is the key to Alaska's future, and will allow us to fully realize the potential of our most valuable asset: our human resources.

PETER GOLL, Democrat

RESIDENCE ADDRESS: Haines

MAILING ADDRESS: PO Box 581
Haines, AK 99827

LENGTH OF RESIDENCY IN ALASKA: 14 years

DATE OF BIRTH: 2/28/47

PLACE OF BIRTH: New York State

OCCUPATION: Artist, Publisher

SPOUSE: Sherrie

EDUCATION:

College/University—Cornell University 1964-1968, B.S. (Journalism)

Post Graduate—Syracuse University 1969, M.S. (Communication); University of Washington 1971-1972, Ph.D. Program (Communication)

POLITICAL AND GOVERNMENT POSITIONS: State Representative, elected 1982, 1984 and 1986; Member, House Finance Committee; Chairman, Fish & Game and Court System Budget Subcommittees, Past Chairman, House Community & Regional Affairs Committee and House Fisheries Committee; Member, Commission on Federal Areas, Governor's High Seas Task Force, and Bush Caucus.

BUSINESS AND PROFESSIONAL POSITIONS: Lecturer, University of Alaska.

SERVICE ORGANIZATION(S) MEMBERSHIP: Alaska Native Brotherhood.

SPECIAL INTERESTS: Serving District Two, Citizen Control over Government, Needs of Children and Elders, Subsistence, Equal Justice, Public Safety, Fishing, Ferry Service, Quality Resource Management, Rural Economic Development.

OTHER: Rep. Peter Goll is known for his powerful support for District Two. His hard work has greatly increased area services. Southeast's rural residents now command the attention of state officials. As a senior member of the House majority, Peter's ability to serve the District continues to grow.

STATEMENT:

As your representative, I've supported policies which respond directly to the public, and have ensured your personal access to state government.

For six years, my efforts have increased area services. As a senior legislator, I can offer district citizens even greater strength in the capital.

Education and University Outreach:

I was responsible for the new University Outreach Program, and helped win early public school funding.

Children:

My recent efforts include creating the Alaska Children's Trust Fund, winning services for disabled and mentally ill youngsters, and expanding Headstart.

Ferries:

I won increased ferry funding, and will work for additional improvements.

Economic Development:

My efforts expanded small business assistance, improved tourism programs, helped local timber businesses access area resources and protected local hire.

As Fish and Game Budget Chairman:

I stressed the needs of local communities in fisheries management. Adding dollars for Southeast, I boosted Commercial, Sportfish and Game management, hatchery production and stream surveys. Protecting subsistence and halting interception of Alaska salmon remain top priorities.

Native Issues:

I sponsored the law prohibiting race discrimination in public school employment, budgeted funds for Sealaska Heritage Foundation, and Tlingit and Haida Social Services, conducted hearings on prison conditions, subsistence and limited entry problems.

Senior Citizens:

Can count on my strong support for all senior programs.

Public Health:

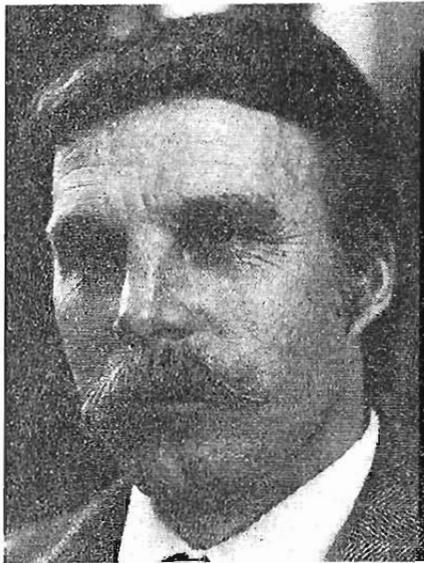

I sponsored funding for clinics, public health and emergency medical services. My legislation protects disabled Alaskans from abuse.

You Can Receive: Effective help with any government matter by calling my office. I am there to serve you.

POLITICAL AND GOVERNMENT POSITIONS: Chairman, Sitka Charter Commission; Assembly, City-Borough Sitka, two terms; Chairman, Municipal Finance and Utility Committee; Deputy Mayor; Mayor, City-Borough Sitka, two terms; President, Alaska Conference of Mayors, two terms; Alaska Municipal League Legislative Committee, six years; Alaska House of Representatives 1980-1988, Member, Finance Committee and Special Committee on Fisheries; Speaker of the House 1985-1988.

BUSINESS AND PROFESSIONAL POSITIONS: Instructor in National, State and Local Government and other social sciences at Sitka High School and Sitka Community College

SERVICE ORGANIZATION(S) MEMBERSHIP: Lions; Sitka Chamber of Commerce

SPECIAL INTERESTS: Hunting, fishing, boating, public service.

OTHER: Alaska Native Brotherhood; Elks; Moose; Democrats.

STATEMENT:

Economy:

I believe we can develop our state without losing our Alaskan lifestyle. We have to do more than just provide raw materials for labor outside the state. Viable industries must be encouraged. We must continue to develop our mining, fishing, tourism, energy resources, agriculture and forestry to put Alaskans to work. We must stop exporting jobs and importing workers. Our work force must be employed and protected by an Alaska hire policy.

Permanent Fund:

Earnings should be used when necessary as a positive counter-cyclical force in the Alaska economy.

Fisheries:

The Chinook Treaty Quota must be increased for Alaskans. I favor active state participation in developing markets and developing the bottomfish industry. Ideally, Alaska should process and eventually market the complete 200-mile fisheries' zone catch.

Land:

Land must be made available to those who wish to utilize it productively.

Education:

All Alaskans, regardless of age, should have an opportunity to develop their talents and skills, including college opportunity.

Social Services:

Strong programs are needed for prevention and treatment of alcoholism, drug abuse, and physical abuse. Programs are needed in the areas of physical and mental health, and for our senior citizens, that they may live comfortably in Alaska.

Transportation:

We must maintain and improve ferry service and assist communities in the building of docks, harbors and airplane facilities.

Protection:

We need additional training and modern equipment for police and fire protection.

Facilities; Alaska Energy Advisory Board; Vice Chairman,
Advisory Ferry Transportation Committee; Board Member,
Northern Southeast Aquaculture Association.

BUSINESS AND PROFESSIONAL POSITIONS: Alaska City Managers
Association; State Range Rider; City Manager.

SPECIAL INTERESTS: Amateur radio and fishing

STATEMENT:

Permanent Fund:

I support the Permanent Fund remaining ex-actly what its name implies, **permanent**. I will resist the efforts of those who would fine tune the intent of the fund in their attempt at an end run around the electorate.

Economy:

Employment opportunities are available if the state will create a sound and consistent policy towards the private sector. It makes no sense to spend large sums of money wooing industry while at the same time attempting to legislate it out of Alaska.

Fisheries:

Fishermen must have a more forceful voice on issues relating to their industry's well being. Fishermen have some excellent ideas on management of the troll and seine openings which continue to fall on deaf ears. All existing state harbors are an unfunded liability even though in many cases sufficient funds are being collected through the raw fish tax and marine fuel tax to fund major rehabilitation and replacements costs.

Education:

I believe that our state constitution mandates the responsibility for education to our state, and I will support 100% funding.

Elderly Programs:

I will champion the cause for all programs which assist the elderly.

Drugs:

I support the recriminalization of marijuana. I accept the fact of zero tolerance on the water, but totally reject the myth that it would be unconstitutional to enact legislation recriminalizing use of the substance on land.

Ferry Service:

I will work diligently to insure that my district receives its fair share of ferry service.

STATEMENT:

Bill Hudson's highest priorities will be to increase job opportunities for all Alaskans, improve programs for the elderly that guarantee dignity with stability and improve educational opportunities for pre-school to post-graduate students.

His experience as Commissioner of the Department of Administration, Director of both the Alaska Marine Highway and the Alaska Seafood Marketing Institute as well as incumbent legislator provide a wealth of experience, ability and leadership opportunity for the people of Juneau and Douglas and all of Alaska.

Bill sees the impending downturn in oil revenues as an opportunity to redefine state priorities, a need to achieve greater cost-effectiveness and a greater mandate to work with small business and the growing mining, tourism, timber, fishing and petroleum industries to assure sound economic growth. Further, he believes in the balance between wise management of our vast natural resources, economic development and the unique Alaskan lifestyle.

Bill Hudson is a special advocate for children, the developmentally disabled and senior citizens. He sponsored two bills that have become law that will help reduce the growing use and abuse of drugs and alcohol by our youth. Combatting drugs and alcohol will remain a high priority on his list.

Bill will also continue his efforts to improve our aging ferry fleet by the addition of a fast ferry link in the Upper Lynn Canal and construction of a road connecting our Capital to the Alaska highway system.

HOUSE DISTRICT 4, SEAT B

PAUL LEON FLETCHER, Republican

RESIDENCE ADDRESS: 5905 Churchill Ct #27
Juneau, AK 99801

MAILING ADDRESS: Same

Originally from Washington state, where his father served as a city councilman in the community of Pasco, Paul has enjoyed an active role in the cultural, social and political life of Juneau and Alaska. His career in community economic development and corrections have provided a broad frame of reference.

Paul's wife, Patsy, brought her family to Alaska when she was made Director of the Southeast Human Rights Commission. She also brought 15 years of professional experience in civil rights to the job. Their daughter, Om, has since graduated from Juneau-Douglas High and is in Italy studying performing arts as part of the international Christian Youth Exchange program. Son, Tino, played football for the Juneau Football League and is currently attending high school in Arkansas pursuing his football ambitions as a senior there.

STATEMENT:

With more than 20 years of community economic development experience in and out of Alaska, Paul Fletcher believes Juneau can do more to build a diverse economic base, develop natural resource potential, educate, enforce public safety, and create year-round tourism. He is also in favor of building a highway link to Haines.

Educated in business administration, Paul most recently served as Acting Executive Director for the McDowell Group, Inc., liaison to the Juneau Economic Development Council. His efforts as Director of the Alaska Office of Enterprise under a previous governor lead to creation of the Small Business Assistance Center, the University of Alaska Southeast Development Center and the UAS Small Business Development Center.

Other work experience has included his own small business, serving as an Alaska Juvenile Probation Officer, Legislative Assistant in Washington, Director of a Seattle youth drop-in center, and as a Program Director for the Washington Department of Corrections.

Using innovative approaches to financing economic development, Paul has brought federal matching funds to, providing new opportunities for people of Juneau. With an understanding of the intricacies of financial assistance programs, and a vision for Juneau capacities, Paul will draft legislation and support public/private sector development in the Alaska Legislature.

The experience and proven abilities of Paul Fletcher will add considerably to the moderate political framework of the Juneau delegation to the legislature. His administrative skills and community emphasis background will contribute greatly to local economic stability, diversity and quality of life.

STATEMENT:

Alaska is rich in natural and human resources. We have the materials to build an exciting and positive future: bountiful mineral, timber and fish resources, spectacular scenery, clean air and water, and a diverse, creative, energetic population with a pioneering spirit.

To reach our potential, Alaskans must elect leaders, at all levels of government, whose integrity, commitment, attitude and ability meet the highest standards. They must put aside regional jealousy and divisive partisanship and commit to a unified vision for Alaska, blending the best of our past with the brightest of the options for the future.

Dozens of issues face us: education funding, insurance availability, senior housing, quality of environment, transportation. Two top priorities are:

The Economy:

We all agree we must diversify. We must work cooperatively with the private sector to facilitate the development of tourism, fisheries, mining, cottage industries, manufacturing and our universities. Marketing, technical assistance and a positive attitude will help to develop our potential.

Community and Family Values:

Values aren't legislated, but must be remembered to avoid additional social problems. We must speak out and, by example, encourage an honest, caring and supportive environment for our children. We must intensify our efforts against family violence, sexual crimes, insensitivity to those in need, inadequate child care, drug and alcohol abuse.

During my first term, I worked effectively to make progress in these areas. Both the economy and the family were my highest priorities and they will be next session if I am reelected to serve you.

STATEMENT:

Over the past six years I have had the privilege of serving the residents of Senate District D. During that time I have listened and worked closely with you the citizens. Now I want to continue using the experience and knowledge I have gained to continue serving you.

We must continue to bring government closer to the people it serves. Paul Fischer knows this can be accomplished without going behind closed doors—a practice that must be halted.

Paul Fischer will continue to enhance and protect the Permanent Fund.

As a strong supporter of local hire Paul Fischer will continue to support legislation designed to make sure Alaskans get the first opportunity at jobs in our state.

Paul Fischer will not support a personal income tax. Now is not the time to add additional tax burdens on Alaskans.

The State bureaucracy needs to be reduced. Non-essential and wasteful programs need to be eliminated.

The family as the basic unit of our society has to be strengthened.

Together, we are making a difference!

Thank you, your support and your vote are much appreciated.

I ASK FOR YOUR VOTE.

STATEMENT:

Marj O'Reilly believes it is the role of state government to promote, protect and provide for the social and economic welfare and civil rights of its citizens.

The limited government is usually more effective and is to be desired. The state must, however, be responsible to community needs and thus be inventive and courageous in developing sensible public policy.

Responsible economic development is key to a quality of life when opportunities for economic success and a financially secure future are synonymous with appreciation for and protection of our environment.

The quality of our public schools is important and we must provide for the best schools in America so we can assure our children are prepared for their futures.

Health care is essential and the state must promote programs that provide protection for its citizens from prenatal care to the senior citizen.

A civilization is based upon dynamic law that provides order and civil protection. We must use our resources in positive ways to promote the public welfare.

LARRY SLONE, 20K Party

MAILING ADDRESS: P.O. Box 225

LENGTH OF RESIDENCY IN ALASKA: 17 years

DATE OF BIRTH: 1947

PLACE OF BIRTH: Alaska

OCCUPATION: Aviator, occasional Commercial Fisherman

EDUCATION:
College/University—2 years college

MILITARY SERVICE: Army Infantry, 1966-1968

SPECIAL INTERESTS: Barroom dancing, reading

STATEMENT:

Fellow Alaskans:

20K symbolizes the heart of my political proposal. Essentially I advocate repealing the amendment to the Alaska Constitution (Article 9, Section 15) which originally established the Permanent Fund, selling all fund assets and returning the entire proceeds (including earnings) to the individual residents of Alaska. The per capita share will be approximately \$20,000 (20K) gross.

This action will energize the Alaskan economy from within and both slow the flight of jobless Alaskans and assist in securing their futures by providing them directly with the fruit of the blessings of the land. Here, patriotic Alaskans, is truly opportunity to rescue the Fund from the dangers of high inflation, special interest appropriations, and other bureaucratic mischief.

As state senator I will promote fiscal conservatism, social liberalism, stiff criminal justice, individual initiative, environmental awareness, prudent resource development, concern for business needs, understanding of labor, sympathy for the down-and-out, consideration of cultural and ethnic differences, and separation of church and state. I shall adhere to the United States and Alaska Constitutions, recognizing that all legislative power emanates ultimately from the people.

I will encourage those seeking a higher purpose in life and my conscience will be my guiding light.

A vote for Larry Slone is a vote for constitutional government and individual freedom; it is a vote for traditional human values and for innovative solutions.

Sincerely,

Larry Slone

STATEMENT:

I trust in the ability of the Alaskan people. It is time that we work together with the determination of a unified community. Open and honest communication will assist the legislature in facilitating both chamber's productivity during the session.

The challenges ahead are tough but clear-cut. We must put together a plan of action to diversify the state government's revenue base. The growth of the Alaskan economy can produce more participants in the revenue base.

Alaska's export industry is strong and growing with a bright outlook for the future. We should promote the expansion of this industry. Federal Trade Zones (FTZ) could strengthen and lengthen the life of the international trade infrastructure.

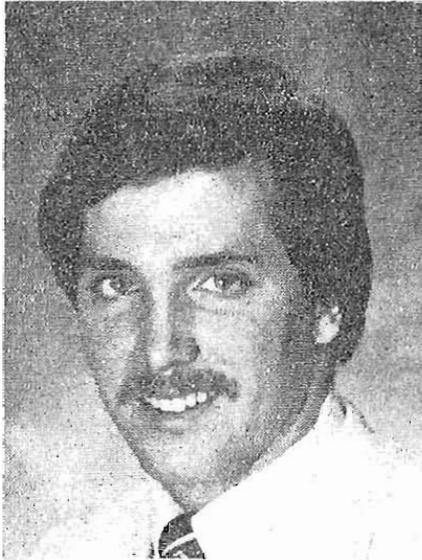

A positive investment climate, stabilized tax structure and incentives are answers that will stimulate the economic recovery in Alaska. The state government should take the responsibility in encouraging growth in the private sector. The state revenue base could someday be less dependent upon the condition of the oil industry.

The decisions that are made in the next session will set the course of events that will take us into the next decade. Let's work together for a future. If not for ourselves, then for our children and their children's children.

STATEMENT:

Economic Development:

Alaska is facing tough economic times, but the future is bright. We have an abundance of natural resources which, if responsibly utilized, can provide jobs and ensure economic development. Government can and should provide an attractive climate for economic development both by making available the necessary infrastructure and, by making sure the regulatory process is such that it helps rather than hinders new or increased development.

Budget Process:

As revenues decline we must look for more efficient ways of delivering necessary government services. During the years when Alaska had unlimited revenues the dependency on government provided services and programs grew tremendously. We must continue the process of evaluating the operating budget to determine which services and programs should be scaled back or discontinued under current budget constraints.

Education:

Education has been, and will continue to be, a priority of mine. It is the greatest gift we can give to our children. The early funding concept seemed to work well. It provided local school districts with the funding information necessary to develop their budgets in a timely manner. There are tremendous inequities in the school construction policy statewide. We need to develop a new school construction policy that will address school construction needs in a cost-effective and equitable manner.

STATEMENT:

One of the most critical issues facing our State today is the financial picture. We must work to develop a responsible budget that clearly reflects our current economic status.

The creation of a biennial budget would insure positive budget cuts. If the legislative procedures were changed to mandate the first session of each Legislature as the legislative term and the second year of each Legislature as the budget term, the length of both sessions could be dramatically reduced, and a great deal of money could be saved. This would also re-establish a "citizen legislature", as originally mandated in our Constitution.

The education budget has serious inequities in the distribution of dollars between the urban and rural areas, and these problems must be solved.

We need to develop a State-wide transportation system that will open all areas of Alaska for resource and economic development and help to sever the dependence we have on oil prices and foreign oil cartels.

Senior Citizens' issues must be addressed and solutions found. We need to equitably solve the Longevity Bonus Program issue.

The Permanent Fund and the Distribution Fund must not be tampered with.

We need to establish more education programs in the lower grades in school to combat the spread of drugs, and put more money into drug enforcement programs.

We need to insure continued pressure for the development of ANWR, and Alaska's fair share of the oil royalties.

STATEMENT:

In 1986, after being elected to serve the people of the Kenai Peninsula, my first job was to analyze comments and concerns shared during previous months in communities comprising House District 5. The list included jobs for Alaskans, education, public safety, and health issues.

During the past two years, the Kenai Peninsula was fortunate to experience record fishing and tourist seasons, resulting from development of resources other than oil. It is important to continue to encourage resource and industrial development, until every Alaskan has the opportunity for employment. The Bradley Lake hydro-electric project is one example of development creating employment for Alaskans while providing a long-term power source.

Education is one of my highest priorities. The future of the State of Alaska rests with our children. Quality education will enable them to effectively deal with present and future technology.

Budget cuts have made this an unpopular time to be a legislator, but with careful planning and resource development, the Alaskan economy will be stronger in the future. After years of a "do spend philosophy" in the state, responsible legislators of the future will need to practice fiscal restraint. Representatives will require considerable political skills to define services that the state provides that are necessary and prioritize those services. I believe that I have the skills to be effective as your representative.

I am committed to provide responsible representation, and will work to insure that state government remains responsive to the people of the State of Alaska.

SPECIAL INTERESTS: Family, church and community.

STATEMENT:

In 1984 I was elected to serve a two-year term in the State of Alaska Senate. I completed that term in January 1987. My position is that government should do only those things that the individual cannot do best for himself. There are several pieces of legislation that are important to Senate District E. The State of Alaska must get rolling again. We need to allow the miners to mine, the oil companies to drill, the fisherman to fish, and private business and industry to expand and develop the rich resources that we have and provide full employment for our people. Our people must never again be faced with either leaving the State of Alaska or be unemployed. We must loosen government restrictions - industry and the environment can and will live and work together nicely.

Several issues must be addressed:

- election of the Attorney General
- capital punishment for heinous crimes such as mass murders—multiple rape—drug kingpins
- conspiracy law
- anti-racketeering law
- parents' rights
- right of life for the unborn, aged and handicapped.

I look forward to representing the residents of District E in the State Senate in January 1989.

STATEMENT:

In Alaska we are given the unique position of owning the rights to our state's resource wealth. We have an ongoing duty to remain vigilant in our use of these resources to provide for the necessities of life: education, health care, roads and public safety.

I enjoy public service and take the job seriously. I think as Alaskans we have the duty to think ahead to future generations and to provide not only for ourselves, but to plan for them.

Lack of an historic perspective and new economic-political factors have eroded our stewardship. The state must receive a fair rent from public resources just to provide the necessities of life in Alaska. Today, as before statehood, investors take Alaskan profits and build other areas' infrastructures. From London to Tokyo, communities prosper from our resources.

Public awareness of what supports the Alaskan economy is vital. This knowledge needs to be used to improve the Legislature's support for wise, business-like, disposal and rent of our resources.

Congress gave us the chance to live well in Alaska. However, only active thinkers who analyze and vote will keep us from losing the opportunity given us at statehood. Without this we are destined to poor schools, reduced health care, unemployment, high taxes and a life we do not want for our children and future generations.

If I have only one thing to say this election season it is this: don't just vote. Read - think - then vote.

tation; Meeting people and discussing issues that affect the
state of Alaska and its future.

OTHER: I love Alaska, I feel this state has a very optimistic future
and provides us an opportunity to live in a unique and
wonderful environment.

STATEMENT:

I am very excited about our state's future. The 1980's afforded us the opportunity to lay most of the groundwork for our continued growth. We have built highways that provide access to many communities, roads and export docks that allow us to get our valuable resources to market. We have developed quality schools, health facilities, and hospitals throughout the state. In short, we have provided our state with the basic necessities required for future growth. Now it is time to build upon this strong base.

Fluctuating oil prices have made us very aware of our need to diversify our economy. We must get down to basics and take a common sense approach to help attract more tourists to our state and to develop new markets for our seafood, forestry and mineral products. We must encourage new industry to locate in Alaska, bringing new jobs and opportunities.

Oil revenues allowed us to construct the necessary infrastructure to compete for new overseas markets. While economic diversity will not occur overnight, clear direction, commitment and time will ensure our state's future growth.

If people had said 30 years ago we would have come this far this quickly, I would have found it difficult to believe. I am proud to have been part of our past accomplishments and am looking forward to being a part of the next 30 years of growth.

STATEMENT:

Dear District 6 Voters:

My campaign is implicating 2 themes:

- It's Time for a Change
- Alaskans First

My Agenda is:

Jobs:

According to employment data provided to the Department of Labor, there are 40 to 50 non-resident workers per oil rig at Prudhoe Bay. I support a complete investigation by the Attorney General's Office into why companies are not hiring local people in Alaska.

Resource Management:

I support developing our natural resources; **Example:** Timber, Fishing, Minerals, etc., and create Jobs for Alaskans, by refining our natural resources here in Alaska, to finished products, instead of creating Jobs in Japan and Korea and other countries.

Finances:

Economic Limit Factor, will cost the state more than 1.2 billion dollars in severance taxes over the next 5 years. I support eliminating ELF completely. I also support honoring Dr. King without paying 3.5 million dollars for state workers to sit home and watch TV.

Favor:

- Protecting the Permanent Fund
- Protecting Senior Citizen Programs
- Stable, Predictable Taxes
- Community Schools and Councils
- Housing and Student Loans
- Right to Keep and Bear Arms
- Capital Punishment
- Electing Attorney General
- Prayer in Schools

In closing:

We need someone in the legislature who will be conscientious, sincere, straight forward and who will get the jobs done. **Elect Louis R. March, Jr.** on November 8. **It's Definitely Time for a Change.**

Sincerely,
Louis R. March, Jr.

STATEMENT:

I believe it is the responsibility of state government to:

- Manage the state's resources in a manner that will best benefit the citizens of the state
- Adequately support education in order to ensure that Alaska's youth will have the opportunity for excellence
- Adequately support the statewide university system in order to ensure that post secondary academic, vocational, and technical training are available at a reasonable cost
- Continue and improve the student loan program
- Protect the health and safety of Alaskans
- Provide economic development support and incentives in order to ensure steady growth and optimum employment opportunities
- Assist the state's senior citizens to maintain a reasonable quality of life
- Assist in the prevention of child abuse, neglect, and domestic violence
- Improve day care facilities and funding
- Protect the Permanent Fund.

It is the job of the legislature to make well-defined public decisions and to determine governmental priorities. I believe in open government and fiscal responsibility. If oil revenues continue to decline, there are several sources of revenue which should be tapped before any consideration is given to reinstitution of the state income tax.

These include:

- Collection of the two billion dollars already owed the state in uncollected taxes
- Use of Permanent Fund earnings after payment of the dividend
- Increased tax on alcohol and tobacco
- Increased user fees.

As long as the state receives 85% of its revenues from oil, and is financially able, it is proper to assist local governments to reduce the sales and property tax burden on local citizens.

STATEMENT:

Education:

I was proud to have played a part in bringing education back as our state's top priority. For the first time in the history of this state we addressed education first and increased needed revenues which allowed school districts to know what programs and teaching levels to maintain.

A precedent has been set that future legislators and governors should live by: education must be addressed first, and must be a separate part of our operating budget. Education, I've continually said, should be our number one priority.

My continued commitment to education is to ensure that proper funding of education matters affecting communities throughout this state are properly addressed so we may educate our future Alaskan leaders.

Public Safety:

As a member of the House Public Safety Finance Subcommittee, I helped to focus the importance of needed revenues towards State Troopers, Law Enforcement and Fire Protection. As your Representative for District 7, I represent Bear Valley, Rabbit Creek, Oceanview, Bird, Indian, Girdwood and Nikiski. Law Enforcement and Fire Protection are critical to these areas. Proper funding was obtained to provide increased protection for our communities. Areas receiving increased funding were State Trooper Detachments, Rural Trooper Housing, Criminal Investigation Bureau and Fire Prevention Operations.

I am proud to be a Representative who puts safety of lives and property at the forefront of our state priorities.

My continued commitment is to listen, work for and make decisions with Alaskans to improve the quality of life for all of us in Alaska.

STATEMENT:

You know, the Legislature spent more than four billion dollars in the last two years. But what did you get?

I can do a better job. When you consider my qualifications and integrity, you will find I am savvy enough, tough enough and trusted enough to deliver for the Mat-Su.

Government must do a few things and do them well:

- Natural Resource Development (including agriculture and tourism)
- Education
- Fighting Crime
- Public-Health
- Maintenance of ports, airports and roads.

Our Valley has been hurting. You and I have been hurting. It just might be a good idea to send someone to Juneau who knows firsthand the hard realities of a down economy.

Did the Legislature do the job? Ask your neighbors: Are there enough new roads? Do we have more mining? Do we have development of our coalfields? Is the Fourlane on schedule? Do we have increased timber harvests? Is there a new port at Point Mackenzie?

The State controls the resources – the Legislature must act. I can do a better job. Out here we are getting lean and mean – and that's good – but the down economy is still threatening our families.

The liberals in the State House are campaigning for new social programs for children. The way I see it, the best social program for children is a job for their parents.

We need savvy, tough and trusted representatives in Juneau. I am asking for your vote. Here's Looking to the Future in the Last Frontier!

STATEMENT:

I believe that government is legitimate and moral only insofar as it is an extension of the Natural rights of individuals. Government is created by individuals and, as such, its only legitimate powers are those which individuals can delegate to elected representatives.

Throughout history, most social ills can be traced to coercion — someone or some group forcing others to do that which is not in their best interest — for the sake of political power and/or expediency. This distorts the Natural sequence of events and creates massive long range problems by causing people to become dependent on the state and much less self-sufficient, and more burdensome on the producers of society from whom the "taxes" are extracted.

Our Libertarian philosophy of non-coercion would bring a dynamic stability to our society since the most productive and creative minds would be set truly free to "take us to the stars."

At first glance one may not realize what coercion costs us as individuals:

1. It prevents us from reaching our greatest potentials by penalizing the producers and free thinkers in our society.
2. It rewards the negative forces in society — the non-producers, the thieves, slavemasters, the frauds, and induces the short-sighted to join them.
3. It makes a mockery of compassion since you cannot force anyone to be good or compassionate.

Dare to break the stagnant mold of conformity and coercion — vote Libertarian on November 8th!

Thank you.

STATEMENT:

Since the discovery of North Slope oil, we all have heard the statement, "What will we do when the oil runs out?" It has only been the last few years that we have heard, "What are we going to do if the price of oil drops?" That's the problem of today, no planning yesterday by the legislature to develop any replacement income from other resources of this state. Government should provide industry incentives and show cooperation with investors. It's easy to run a government when you have an excess of money for projects to keep your constituents happy. But now we need to plan and budget, live within our means. **It's Time for a Change!**

Resource Development:

Tourism, oil, mining, fishing and timber will bring **Jobs!** I support the private enterprise in establishing these goals.

Protect the Permanent Fund:

Money to be used on **Voter Approval Only.**

Education:

We need to expand adult education, so as to provide the stimulus and example for young people to act upon and follow.

Longevity Bonus:

I support the Longevity Bonus Program along with some type of annuity program which would allow all people to participate, no matter what their income.

No More Taxes:

Taxes are a crutch for government in lieu of innovative ideas to raise revenues. Attract new industries.

Planning and **action** is what is needed now. I believe that being a small businessman with a firm background in planning, common sense and honesty will convince you to send me to the legislature.

STATEMENT:

Experience in all levels of government and knowledge of the challenges facing Alaska are vital to a candidate hoping to move Alaska toward a stronger economy, while at the same time maintaining the quality of life Alaskans take for granted. Now more than ever we must maximize the use of our oil revenues to create jobs and to provide the necessary infrastructure for establishing a strong, stable and permanent economy. We need to maximize our Permanent Fund investment potential. Government can, and must, create the incentive to support our developing business and private sector industries. Capital investments must be made to insure our future energy needs and to support our Alaskan transportation systems. We need to promote our tourism, timber, and agriculture industries and at the same time use our land and our resources wisely. We need to continue to promote and adequately fund education and the student loan program; state programs that help local governments reduce property taxes; and social programs, especially those helping the elderly and the handicapped to preserve their human dignity. We need to provide strong law and order legislation. We must set the framework for Alaska's future now by adequately addressing the State's unique economic and growth problems and at the same time protect our environment and our lifestyle. Finally, we must continue to bring government closer to the people it is meant to serve. **Thank You.** Your support and your vote are much appreciated.
