Political and

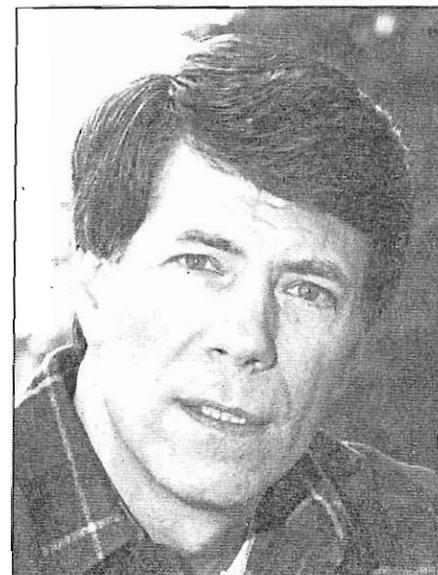

Government Positions: Alaska Senate, 1974-92; Senate Majority Leader, 1981-82, 1989-90; Chair, Banking & Economic Development Committee; Senate Minority Leader, 1987-88; Chair, Senate Judiciary Committee, 1985-86; Chair, Senate Banking Committee, 1979-82; Co-Chair, Special Committee on Legislative Reform, 1981-82; Chair, Senate Community & Regional Affairs Committee, 1979-82

Business and

Professional Positions: Attorney; Alaska Bar Association; Phi Alpha Delta

Special Interests: Hunting, fishing, target shooting, camping, jogging, reading

Other: Pat grew up in Alaska. He worked his way through college as a grocery clerk and construction worker. He's been a teacher, commercial fisherman and builder. Pat served in the Alaska Senate 18 years and is noted for his leadership in banking, economic development and senior legislation.

Statement

After watching the lack of leadership in the House, I am asking for your support to bring experienced, effective leadership to the Legislature. With your help, I will work to improve our schools and roads in west Anchorage, and make our neighborhoods crime and drug-free.

My priorities include:

* **Economic Development** - Declining oil revenues require that we work to diversify our economy. We must expand tourism, fishing, small business and all areas of the private sector. I support increased oil exploration and production, and the development of ANWR. Alaska's future is one of growth.

* **Budget Reform** - The present House leadership passed the largest state budget in a decade. They failed to develop a long range fiscal plan. The Permanent Fund and our entire economy is at risk. I will work to reduce state spending while protecting vital programs. The state must live within its means just like you and I.

* **Quality Education** - I support full funding of education. I've co-sponsored legislation to reduce class size. I will make sure that west Anchorage gets its fair share of the education budget to increase the quality of our schools.

* **Safer Neighborhoods** - My record of public protection speaks for itself. I authored and passed laws restricting the use of the insanity plea and prohibiting bail for serious felons. I also wrote the bill that provide mandatory sentences for serious felonies.

Statement

We must remember Alaska's history if we are to continue to grow and prosper as a state. It has been one roller coaster ride after another since early times because we depend so heavily on revenues generated from oil production. The crisis facing us in 1994 is nothing new - we will survive and flourish as we always have - and we will continue to enjoy what has made Alaska so special to all of us.

I was very honored to represent our area in the State House these past two years and ask for your support so I can continue to make a difference in our state. I would like to be a part of the change that is coming. It will be hard work, but I look forward to helping reshape our schools, economy and our future growth. It will not only be challenging, but it will be exciting!

Statement

District 14 needs our help! We have seven schools, including four on Elmendorf. Base schools have serious problems (need roof repairs, additions, etc.), but can't get bonding because they are on federal land. We need legislation to allow general obligation bonding, backed by state and municipal full faith and credit. We must repair the Wonder Park roof and the air circulation system at Ptarmigan (where some children go to school in rooms without windows), and we must fund Government Hill School improvements.

Boniface and DeBarr need repaving.

We must help oil industry employees, who have lost jobs, to find new jobs locally, obtain re-education with student loans, retain health insurance coverage and interim mortgage protection, if necessary.

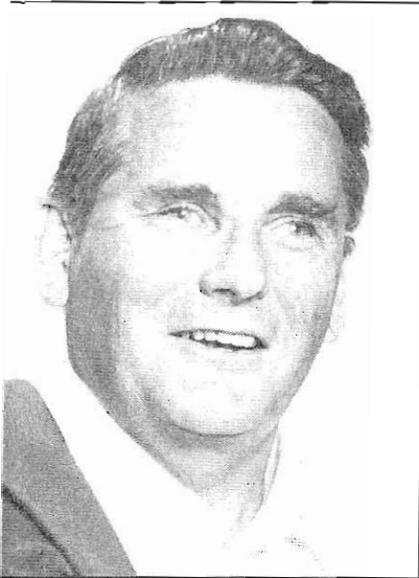

We must assist environmental cleanup at the Government Hill federal fuel tank farm, at Hollywood Vista, and on Elmendorf. We need to provide safe playground equipment at schools and Towne East Park, and to support improvements at McKinley View Park on Government Hill.

We must make Anchorage attractive for Air Force families to insure that Elmendorf, the top U.S. Air Force Base, stays open. We must support the Alaska Railroad and the Port of Anchorage, which employ hundreds of Alaskans. And we must do all this in a fiscally responsible manner.

We need new leadership - effective, yet fiscally responsible. In eight years I was twice elected House Majority Leader and funded more improvements for my district than any other in Anchorage. Together you and I will get the job done.

Statement

Jobs, Jobs, Jobs! - The most effective way to decrease most of the State's social problems is through more employment opportunities in the private sector. The biggest issues facing my constituents are economic survival and reducing government waste. We must provide more opportunity for meaningful, lifetime employment. The "stop growth, don't build, overregulate" attitude must be ended to make room for new opportunities.

Gambling monies out of politics - In Alaska, we need to get the influence of gaming and gambling money out of lobbying and the political process.

No State Income Tax - Alaskans can celebrate 14 years of no state income tax this year, but others want to rain on our parade. Democrats sponsored state income tax bills which

would have taxed the earnings of every Alaskan who made more than \$31.00 a year (yes, \$31!). Terry Martin helped repeal the income tax in 1980, and has been at the vanguard opposing it every year since. We don't need an income tax, we need to cut government waste. Unless the flow of money is cut off, the bloat in government is inevitable. Don't give into a state personal income tax as a source of revenue until the size of bureaucracy is substantially reduced.

Support the 1994 Ballot Propositions!:

- Yes - Move the Capitol
- Yes - Victims Rights
- Yes - Individual Right to Bear Arms

Statement

As your representative, my priorities will be:

Protect and enhance the Permanent Fund and constitutional Budget Reserve Fund to ensure long-term stability for our economy and benefits for generations to come. Inflation-proofing the Permanent Fund is essential. Permanent Fund dividends to citizens have a greater positive impact on the economy than any other form of state spending.

Reduce spending to a level that can be sustained. We must identify those basic services that are essential for public health, education and welfare, natural resource management and other mandated responsibilities. These items must be priorities as state spending is reduced.

Promote a healthy economy through local, public-private initiatives such as those sponsored by the Anchorage Economic Development Corporation. Emphasize development of tourism, fisheries, oil and gas, transportation/distribution and information and telecommunications technologies.

Help people by continuing efficient, innovative programs that address human problems, protect children, enhance economic opportunities and improve life in our communities.

Clean up air, land and water by promoting solid waste reduction and recycling and providing technical assistance to help businesses reduce hazardous waste. Aggressively enforce pollution laws.

Assure safe and livable neighborhoods through a working partnership between local citizens, Community Councils, and state and local governments. Fight crime by putting more police on the street and with prevention programs.

Open government to the public by complying with open meetings and open records laws and providing meaningful opportunities for citizen participation.

Statement

As a new representative with a new outlook on the problems our state faces, my priorities will be:

1. We must revitalize the state's economy and bring state spending under control. The only way we can do this is to stop basing the next year's budget on "predicted" oil prices. In other words, we should not budget in excess of proven revenues. Then, when there is a surplus in revenues, we can establish a fund and get on a pay-as-we-go basis. The state should also do everything reasonable to help, not hinder, the establishment of new business, preferably by Alaskans.
2. Crime and drug problems are completely out of control. We need laws that are very explicit, easy to understand and that carry harsh penalties. The state should mandate that local governments enforce said laws and protect residents and property or lose state funding. Alaska should not tolerate gang wars and drive-by shootings.
3. We should do something to replace the Longevity Bonus Program. The original purpose was to allow the people who built this state to remain here with family and friends and is still an important issue.
4. A health insurance program should be established before a federal plan is forced upon us.
5. We must protect the right of Alaskans to own and bear arms.
6. Alaskans should do everything possible to protect the sovereignty of our state. Remember government produces nothing, it only takes from the people.

Statement

Regardless of what any candidate says this election, the fact is that Alaska is facing a **\$500 MILLION** budget shortfall next session. Any candidate who says this isn't true is lying to you. I support realistic budget cuts. I do not support tax increases or hidden "user fees" which are nothing more than taxes in disguise.

Additionally, I will bring a particular strength to the legislature: a mix of common sense and business experience. I have worked in the public and private sector for 25 years so I know how to balance a budget and live within one. As a small business person I know what it means to meet a payroll. As an Alaskan with more than two decades of volunteer public service I understand how people depend on services from nonprofit

organizations. I have been a director or board member of the Arctic Winter Games for 20 years, am a lifetime member of the VFW, and have served on the management team that operated the Ben Boeke and Dempsey Anderson ice arenas.

This year, the most important talent a legislator can have is the ability to understand that Alaska is in deep fiscal trouble. Budget cuts will have to be made. I support privatizing where we can, elimination of duplication when discovered. This will not be a easy year for decision makers. What is important for the voters is making sure the decision makers elected are the ones who have experience, dedication, and guts to make tough decisions.

Statement

For the past two years it has been my honor and privilege to represent you in the Alaska Senate. Frankly, I am not satisfied with how our state is being run. With your support I will continue to push for positive change in Juneau.

I have three major goals:

- * **Fiscal Responsibility** - Reduce state spending to a sustainable level while protecting vital "people programs";
- * **Steady Economic Growth** - Promote jobs and small business opportunities for all;
- * **Major Reform** - Improve the way the legislature conducts the public's business.

My "Plan for Alaska's Future" includes:

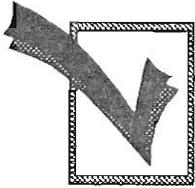

- * Health care reform that prevents the imposition of a federal plan, controls costs, emphasizes prevention, consumer choice and responsibility and ensures universal coverage.
- * A state government that lives within its means, uses a

5 year oil price average and develops and sticks to a long term fiscal plan.

- * An opportunity for a statewide vote on the "Cremo Plan."
- * Aggressive marketing of tourism, seafood and our airport.
- * Major upgrades of our tourism infrastructure.
- * Return of fish and game management to Alaskans.
- * Investment in educational technology to prepare children for success in a highly competitive world job market.
- * Recognition of the connection between alcohol and drug abuse and crime.

I need your help to turn these ideas into action. I want to be your voice for positive change in the Alaska Senate.

My one promise as your Senator is that I will always remember I'm the employee and you are the boss. I would appreciate your vote.

Statement

I am running for re-election to continue working on the problems facing Anchorage and Alaska. I was in the House minority the last two years, and was discouraged by how little progress the Republican majority made in addressing these problems. The next legislature's agenda must include:

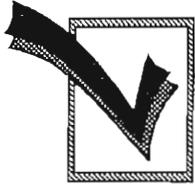

Fighting Crime & Drugs - While some new laws were passed in the last legislature, the majority cut funding for criminal law enforcement, prosecution and jails. I will continue to fight for funding for a criminal justice system that really works. It will be worth the cost to have safe neighborhoods.

Reforming the Campaign Finance System - Corporate interests play too large a role in electing state government. I will push for contribution limits that restore more power to the average Alaskan.

Protecting the Environment - The last legislature passed a variety of anti-environmental laws, including a bill that weakens our oil-spill prevention efforts, and another that promotes aerial wolf hunting. I oppose these bills, and will continue to work for a clean environment and healthy fish and wildlife populations.

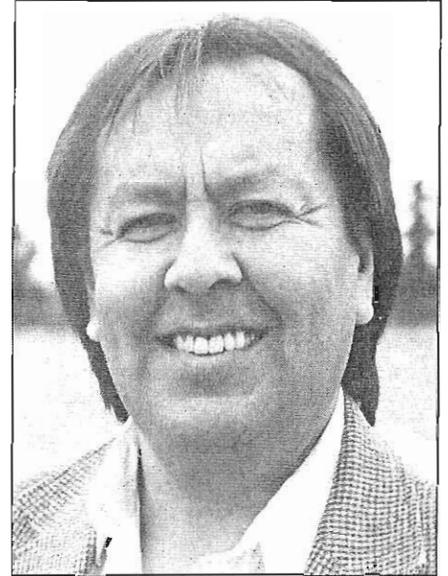

Balancing the Budget - The 1993-94 Legislature left us with an annual deficit that could exceed \$500,000,000! We must reduce spending while increasing revenues. I support continuation of the dividend program coupled with a progressive income tax resulting in no net tax for people making less than \$25,000 a year.

I would like to continue working for Mountain View and Fairview, and would appreciate your support. Thank you for your consideration.

Statement

As your new representative the last two years, I learned firsthand that our government manages by crisis, rather than by long range planning. Consequently, I drafted a bill which the legislature passed requiring state agencies to manage for long term results. The bill required agencies to set goals and objectives and required them to prioritize the services they provide for funding.

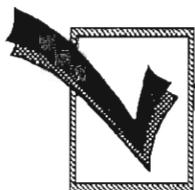

With your support, I will continue working hard to:

- Initiate long range economic planning.**
- Reduce state spending.**
- Keep our neighborhoods safe.**
- Improve the education of our children.**
- Limit legislative terms.**

I offer the following personal qualities:

- Rational and principled decision-making.**
- Accessibility to hear your concerns.**
- A heart for service on your behalf.**

I have spent many hours being a mentor for high school youth and now I share the joys and challenges of raising our children, Grace and Rachel, with my wife, Sandy. I am deeply grateful for Sandy's commitment and help in this campaign and for the help received from many of you. Together, we can make government work better. I respectfully request your vote.

Statement

I came to Alaska in 1961, to Anchorage in 1968, and to District 18 in 1978. I taught for the Anchorage School District, Anchorage Community College and the University of Alaska Anchorage. Teaching has allowed me to experience a variety of summer jobs throughout Alaska.

The breadth of my experience qualifies me to represent a broad spectrum of Alaskans. As part of my desire to represent this broad spectrum of Alaskans, I oppose the closed primary.

Voters want representatives who identify with them and actually live the "Alaskan experience". I believe in a citizens' legislature and feel the urban middle class is underrepresented in Juneau. Legislators must represent the will of the average person through honest, hard work. I am a strong advocate of victims' rights. I also feel it's time women

share equal rights and responsibilities.

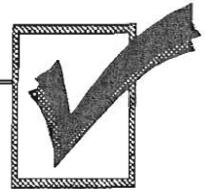

I will fight to reduce and redirect the state operating budget by reducing the legislative budget, reducing the number of state employees through attrition, and eliminating nonessential programs and political appointees. A prioritized budget can maintain the community's quality of life through funding for education, public safety, fish and game management, and improved roads.

We must achieve economic development and job creation by supporting tourism, scientific and technological industries, and international trade. I support protecting the Permanent Fund and "workfare" rather than welfare.

A legislator must represent the will of the majority. As your representative, I will continue to work to bring the common sense voice of the average citizen to Juneau.

Statement

I am running for State House, District 18, to provide "Leadership for a Change".

I am committed to bringing state spending in line with revenues. Our elected officials must stop financing deficit budgets by raiding state reserve accounts.

We must adopt a sound financial plan that involves reducing expenditures to sustainable levels. We must make government more efficient and reduce or eliminate unnecessary programs. **We must reduce government costs, not add new taxes.**

Education must be fully funded; it is our obligation to the next generation.

Our growing crime problem has not been dealt with in an intelligent manner. The incumbent said he was tough on crime, but he cut public safety and corrections budgets. We need more community youth programs to **pro-actively address the growing juvenile crime problems.**

As a health care professional, I will work to ensure that Alaska enacts reasonable health care reforms and avoids a federally mandated plan.

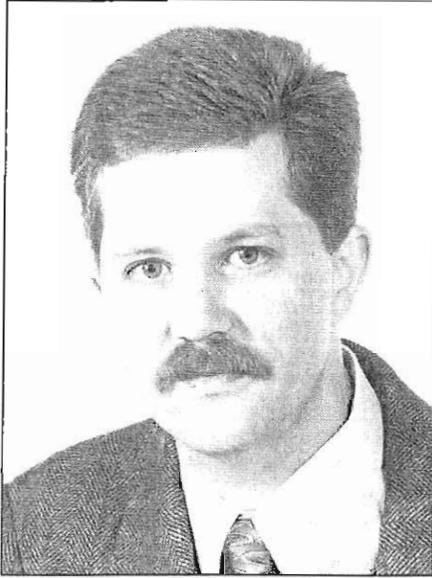

We must promote additional private sector economic investments and diversification. Reducing public sector spending and promoting additional resource development in an environmentally safe manner will create more jobs and business opportunities for all.

I disagree with my opponent and believe **legislators should not be exempted from complying with the Open Meeting law.**

Above all, our elected officials must hold themselves accountable to the highest ethical standards and listen to the people. I am committed to that goal.

Other: Experienced business/contracting negotiator and writer, having worked in oil industry purchasing and contracting for several years.

Statement

After my first month in Alaska, I knew this was going to be my home, and I began then to think about Alaska's future. Since that time, I have become convinced that our government has *not* been planning for that future. The House majority, with the help of our area's incumbent representative, twice broke the law to squander nearly one billion dollars from the oil spill settlement. In order to compensate for this incompetent budgeting, they cut the budgets of departments that need and deserve funding most: our Veterans Programs, Corrections and Public Safety! The House majority in Juneau has been operating on a two-year, re-election mentality. This short-sightedness must be stopped.

In order to accomplish this, my two major goals will be:

- * **First, the control of the legislature must be returned to the people of Alaska through Campaign Finance Reform and Legislative Term Limits.**
- * **Second, we must begin to weigh the investment value of each expenditure and aim toward long-term economic goals for our state.** We must investigate the gradual implementation of an investment revenue plan (like the Cremona Plan), and must place a priority on education and business development. We *should* have been doing this years ago. We *must* start now, or we will have an economic crisis. The incumbent had his chance and he failed us. As your representative you can be sure I will keep our future in mind.

Statement

In 1959, Alaskans voted for statehood in order to have the power to choose their destiny. In 1994 it is clear this has not happened; the actual power in Alaska is controlled by various outside interests - oil companies, environmental lobbies, the federal government and other groups intending to make a profit exploiting the citizens of Alaska. With the tremendous shortfalls in the budget and the social ills devastating our great land, we can no longer afford to stand idly by, watching as outside entities plunder our resources and purchase our lawmakers. We must turn the tide. Methods of returning the state to serving its citizens include:

- * **Campaign finance reform** - ensuring that only a candidate's potential constituency contributes to a campaign, and reducing the possibility of special interests purchasing a victory in an election;
- * **Fully informed juries** - allowing citizens the final word in the constitutionality and legality of statutes;
- * **The right to keep and bear arms** - an insurance policy keeping a government subservient to those who it represents.

If elected, I will strive to return the state to the hands of Alaskans via the above methods. Additionally, I will work toward the state living within its means; if future generations are saddled with an unburdenable debt, then our efforts will have been in vain.

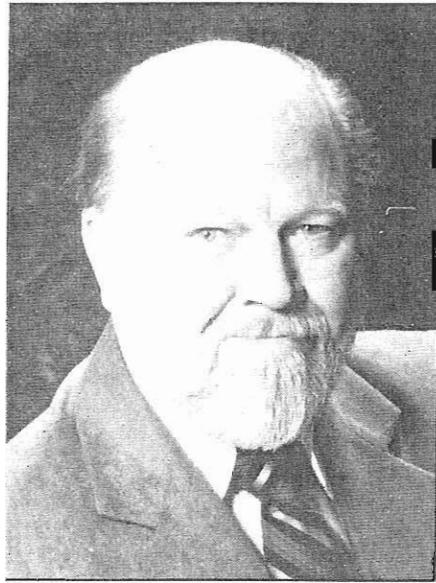

The return of power to the people begins with you. Even if you do not choose to vote for me, please get out and vote.

Thank you.

Statement

I believe in public service. I served on the Anchorage Assembly for six years and was selected to serve as Chairman. I kept my promise to step down after two terms in order to promote new people and new ideas within Anchorage's municipal government.

The experience I gained on the Assembly helped me represent you in the Alaska House of Representatives and will further help me represent you in the State Senate.

In the years ahead of Alaska we face new challenges. We need to reduce state spending, keep the economy growing and provide jobs. It is important to keep the environment clean and healthy for the next generation of Alaskans.

Thank you for your support in the past; I would be honored to receive your vote.

Larry Baker believes in: The basics - roads, public safety and education should be our top priorities.

- * Reduce state spending
- * Job creation
- * Protect the Permanent Fund
- * Ethics reform
- * Term limitation for legislators

I am and will continue to be optimistic about Alaska's future. Through strong leadership I am confident that state government can help keep Anchorage and Alaska growing. The people of the state, through the election process, convey to their public officials their consent to make decisions and their individual interpretation of public trust. I will never violate that public trust or abuse that consent. My pledge is to the highest code of ethical conduct, common sense economics, job and business growth, a safe community, and excellent education for our children.

Statement

As the only State Legislator born in Anchorage, it's been an honor to serve my hometown in the State Senate. I ask for your vote to continue serving you with strong and independent leadership.

A partial list of laws I have authored includes:

- * Successful 1988 Constitutional Amendment for Alaska Hire
- * **Anti-Violent Crime Act of 1992**
- * 1989 and 1991 Crime Victim Rights Act
- * Seven other anti-crime laws including **banning guns from schools and fingerprinting of juvenile criminals**
- * Whistleblower's Protection Act
- * School Bus Safety Act
- * Neighborhood Revitalization Act

In the past seven years, 30 pieces of legislation I authored became law. I co-sponsored and voted for ethics legislation and term limits. I voted against legislative pay raises and refused the legislative per diem increase. I worked for meaningful budget reductions and voted against excessive state budgets. I strongly oppose the income tax and new fee proposals. I've

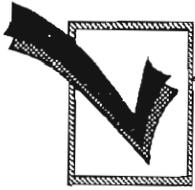

lead the fight for equality for women in the workplace and personally sponsored legislation that would make it happen.

With your support I will continue to fight for:

- * Reduced state spending
- * Jobs for Alaskans
- * Protection of the Permanent Fund
- * Pay equity for women
- * Protection of senior Alaskan's programs
- * Excellence in education
- * Anti-crime and pro-victim reforms
- * Economic development and diversification
- * Term limits for legislators
- * Fair hunting and fishing laws
- * Protection of your right to keep and bear arms
- * Safe neighborhood streets

My family has lived in Anchorage for over 40 years.

With your continued support I will work to make Alaska the best it can be.

Statement

Like many Alaskans, I've spent the last two years shaking my head over reports about the legislature's actions - and inactions. Looking to a new course of action, I've decided to run: **I can do better, we can do better.**

Enough of the irresponsible shenanigans in the last two years; the last legislature sued itself. Enough excessive spending. Enough bickering. Instead, I'll **work with** other legislators to:

* Control the Budget

The Republican-led legislature recklessly spent public funds, dipping deep into our savings. We don't run our family finances that way. Ramona Barnes and her cronies said they'd cut the budget - and then they spent our money illegally, funding the highest budget in years.

* Fight Crime

Do you feel safer? Are your streets safe? "Getting tough on crime" has become a meaningless platitude. Sex offenders don't belong at the Point Mackenzie Work Farm because it's too easy for them to escape. The last legislature passed tougher laws and then underfunded our prisons.

* Educate Our Children

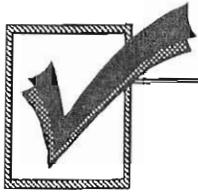

Education must be one of our highest budget priorities. A vote for adequate funding for teaching kids shouldn't be a bargaining chip.

* Make Government Accessible to Citizens

It's our government. The legislature must conduct business honorably and in public. As the former Executive Director of the state's campaign watchdog agency and the author of the first ethics handbook for Alaska legislators, I have a longstanding reputation for ethical conduct and respect for the public's right to know.

We can do better!

Statement

It has been both an honor and personal challenge to have served our district in the House of Representative for the past two years. The legislature presents a tremendous "learning curve" of system process that must be met and mastered. While trying to remain accessible and to meet the needs of the district, I worked on several pieces of legislation that became law and improved our criminal justice system and our juvenile justice process. My background and past experience enabled me to step into a leadership position and resulted in some positive accomplishments.

The past two years saw the legislature faced with the largest decline in state revenue in its history. While programs and budgets have been reduced, overall spending must continue to be analyzed and trimmed.

Important steps were taken to assist in the continued responsible development of our state's resources and the corresponding expansion of the stability and productivity of private sector business and jobs. These steps must continue as some of our biggest challenges are ahead.

With the support of the voters of our district, I pledge to continue to do my best to provide honest, ethical and balanced representation. I will continue to work for the ideas and programs that will help state government provide required basic services. I pledge also to continue to work against legislation that only serves to frustrate the responsible development of our economy and resources.

Statement

It has been an honor and a privilege to represent you in the state legislature for the last four years. In spite of economic rumblings from the oil industry, I am optimistic about Alaska's future and will work hard to bring about positive change.

Due to the Republican majority it has been more difficult the last two years to push social legislation through the House of Representatives. In some instances budget cuts were made that adversely affected the most vulnerable Alaskans - the elderly, the poor and the very young. I feel that we have a responsibility to those less strong and more needy than the rest of us. Therefore, I will continue to support legislation that is good for all Alaskans.

My objectives include:

- * Forward and adequate funding for schools.
- * Affordable health care for all Alaskans.
- * Open and honest state government.
- * Safe neighborhoods.
- * Protection of the Permanent Fund.
- * Sound economic development which will lead to increased employment opportunities.
- * Development of tourism and natural resources.

I will remain accessible through newsletters, public meetings, community council meetings and person to person contacts. I would welcome the opportunity to serve as your State Representative for the next two years.

Statement

Alaska has always been known as the "Owner State." Yet, today some legislators and special interest groups would have you believe that Alaska and its' future belong to them and not you and me. We can no longer afford to allow our economy to be put on a fast track to Mexico or a slow boat to China. Instead, we must look forward optimistically and plan carefully for a steady stable growth that will enhance and encourage a strong economy. Alaska's future must remain in all Alaskans' hands. Alaska's economy and cost of living must be stabilized in order to create an even more diverse economy and encourage more business opportunities and jobs.

To strengthen Alaska, I support:

- * A strong private sector economy
- * The rights of all Alaskan's to have any tax issue brought before them on a ballot
- * A good education system at a fair price
- * Term limits
- * Streamlining government
- * Development of tourism
- * Crime packages to protect our families and neighborhoods
- * Development of natural resources

This District's House seat must be filled with a public servant. One who listens to people, fights for change and reform and obeys the laws they pass for the rest of us. They must envision a House of the people, by the people, not a House of the government, for the government. We must work as Alaskans together to reestablish the Alaskan dream.

Statement

I consider it an honor and a privilege to serve the constituents of my district and the people of Alaska. I stand firmly on my record and feel my experience has been extremely valuable in facing the critical issues of public safety, education, crime and declining state revenues that continue to challenge the legislature.

In light of Alaska's declining oil production, we must encourage development of resources such as timber, mining and tourism, yet create a harmonious environment for the oil industry so that exploration and development of oil reserves move ahead.

My goals for Alaska include:

- * Improving the quality of our children's education
- * Reducing state government

- * Making our state a safer place to live
- * Expanding environmentally safe development
- * Advocating for open and honest government
- * Protecting the Permanent Fund for future generations
- * Fighting against taxation

I pride myself on my reputation of integrity and fair play. My staunchest opponents will concede that I am totally committed to striving toward fulfilling the desires of those I represent. Statement

Ramona Barnes is on record supporting oil company efforts to beat the State of Alaska out of \$3 billion. The most recent analysis of this matter (August 14, 1994) shows that figure now to be \$8.2 billion, enough money to give every man, woman and child in Alaska \$16,400. Since most of her support comes from oil companies and oil related industries, we cannot expect that Ramona will change her behavior. She must be stopped - now.

I will insist that every taxpayer pays his fair share, including oil companies.

Ramona illegally appropriated money from the Constitutional Budget Reserve. The Alaska Supreme Court ordered this money returned, but rather than return the money she struck a deal with the Democrats in order to get the

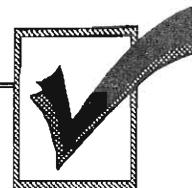

necessary $\frac{3}{4}$ votes to spend the money. Good for Ramona, bad for Alaska. That fund is now essentially depleted - nothing for a future "rainy day". That is gross irresponsibility. That money is gone. As a result, Alaskans are faced with some sort of state tax in a much nearer future.

Ramona's irresponsible decisions are a result of special interest campaign contributions. She is willing to exchange the future financial well-being of Alaska for a few lousy campaign dollars from oil companies and other groups. Good for Ramona, bad for Alaska.

I do not need nor do I want special interest money. My decisions will always be made on the basis of what is good for the State of Alaska. That's a promise.

Statement

Reasonable and fair minded leadership in the House is essential to promoting an atmosphere where Representatives can effectively work together in addressing state issues.

This past session has shown that the leadership is out of control. This legislature, under the leadership of my opponent, passed the 3rd largest budget in the history of the state, instead of cutting spending as promised. The personal attack on Senator Georgianna Lincoln by my opponent was unnecessary and only served to further divide rural and urban legislators on issues. When constituents from our district asked for help from the leadership to address critical problems at Scenic Park Elementary School - they received nice letters and no action. At

the same time the legislators tried to give themselves a \$6,000 per diem raise.

One more term for my opponent and the spend, spend, spend track record that has now become her standard operating procedure will leave us footing the bill.

We need disciplined, responsible leadership, and I'll be that kind of leader.

We cannot afford my opponent's "spend until we have to tax" attitude. It's time for a change. But I can't do it alone, I need your vote.
