### **Position Statement**

**Term Limits:** I have pledged to serve only 2 terms as your senator. Congress was not designed as a retirement home for politicians.

**Immigration:** Our existing immigration laws need to be enforced. All applicants must be able to speak English, and owe their allegiance solely to America just as our laws require. Guest worker programs must be strictly monitored for violations. There should be substantial fines for employers who break the terms of the program. Refugees must be thoroughly vetted.

**National Debt:** We must demand our government live within its means. As a business owner, I can't spend money I don't have and the federal government shouldn't as well.

**Native Sovereign Rights:** Article 1, section 8 of the US Constitution recognizes tribes as sovereign. No agency or entity has jurisdiction over ceding these sovereign rights away.

**Life:** The beginning of life is scientifically clear.

**Fish & Game:** Regarding fish and game management, the federal government does not share Alaskans' values. Alaska is the only state that is prohibited from managing its own fish and game wildlife. Alaskans are more knowledgeable and better equipped to make the decisions needed to protect this valuable resource.

My vision is to carry your values to Washington DC, not to bring DC values to Alaska. I would be honored to earn your vote and become your new senator.
