Special Interests:

Hunting, Fishing, Skiing

Statement:

I am a life-long, conservative Republican.

I support less government, low and predictable taxes, reasonable regulations that encourage economic development, and local parental control of education and school choice.

I believe we need to privatize state services wherever possible.

I believe we must be a willing, trustworthy partner with business enterprises where our word is our bond.

We must be attentive to the needs of infrastructure that will spur the economic development of our many natural resources.

I believe we must heavily push back against burdensome federal regulations.

I believe we must fight to lift the federal regulations keeping us from developing ANWR and Pet. 4. If we do not, then we face the risk of having TAPS removed. Removing TAPS would dramatically curtail arctic offshore development and other possible oil deposits in both the Tanana and Copper basins. The economic impact to Alaska would be devastating beyond even today's low oil prices.

We must remove the bloat from state government. Every state department must come forward with meaningful cuts. If they do not do so then the legislature must make these cuts. I am willing to stand the heat. We cannot continue kicking the can and doing nothing.

I am not a polished politician who will simply tell you what you want to hear to get elected. I am a Christian man who will tell you the truth.

I will go to Juneau to represent you, not tens of thousands of dollars of special interest money in my campaign.
