Statement:

Stop Congressional Abuses: Congressional insider trading and effective immunity from federal laws have created a wealthy Washington aristocracy, steeped in corruption. Congress must live under the laws it imposes on all of us.

Immigration: Obama's illegal amnesty and refugee resettlement programs must be defunded. Our immigration laws must be enforced. American workers shouldn't lose their jobs to cheap, illegal labor.

Government Debt: It's time to stop stealing from future generations. We must demand that our federal and state governments live within their means. Confiscating your money with high taxes (or by eliminating the PFD) is the wrong answer.

Native Sovereign Rights: The US Constitution recognizes tribes as sovereign.

Fish & Game: The feds don't share our values; they must get out of wildlife management in Alaska.

Sanctity of Human Life: Life is the foremost liberty. From the unborn to the elderly, we must protect our nation's most defenseless.

Natural Resources: DC must release control of Alaska's resources so we can establish a prosperous future for our children.

Second Amendment: It's essential to our liberty. We must resist all efforts to thwart this fundamental right.

Military: We must honor our commitments to veterans who have risked everything to preserve our freedoms. Our military must remain strong, free of neo-con entanglements and social experimentation.

Surveillance State: Unconstitutional monitoring of our private communications must end.

First Amendment: Our First Freedoms must be preserved at all costs.

I stand ready to serve and fight tirelessly for you. I would be honored by your vote.
