Position Statement

Constitutional Conservative is my political belief, but I lead with god as my moral compass.

I believe a stronger future for Alaska begins with reinforcing strong public safety by creating a safe community for families and businesses; by backing the blue; Pro-2A. Revitalize the economy with limited government regulations, create jobs, and strengthen Alaska's economy. Improve critical infrastructure by tapping Alaska's natural resources for sustainable development. Fiscal responsibility is a must with restructuring the budget to ensure government accountability and stop runaway spending. We need to stop government overreach by advocating for smaller government limited government that respects individual freedoms. I will continue to be pro-quality education with accountability with reforming education with a strong parental voice to prepare our kids for the future. I will continue to be pro-resource development while responsibly harnessing Alaska's natural resources.
