STATEMENT:

America is at a crossroads that has ripped the heart of our country. Never before have we been so polarized spewing hate to fellow Americans. Previously, we have had differences but civility and common goal of "one nation" have prevailed.

My class exposure to "History of WWII" taught me first hand, hearing our veterans tell personal stories of sacrifice and horror, that war is to be avoided at all costs-not only for our valiant soldiers who selflessly gave their lives but for all families that are innocent bystanders of horror.

America has educational opportunities teaching all ages our histories and values. We are recently experiencing an awakening to realities that question what we have accepted as historical fact. Supporting EducationForAll brings truth out of the shadows. Be it reasons for why we have gone to war, why our Indigenous peoples are denied rights, why women should have the right to appropriate medical choices, what books we read, Black History, etc, continuing access to Higher EducationForAll is vital. We need EVERY talented American and teachers to bring our country forward.

Alaska is at the forefront for our environment crisis now manifesting its wrath on the Lower48-our universities and Indigenous communities have led awareness-our resources like ANWR are precious, not for short term exploitation.

Together we must unite in our goal, bringing communities together in problem solving, finding viable solutions for the good of all, not immediate greed.

Your vote will determine our direction.
