Position Statement

Help me Help you.

I would respectfully ask you to give me a chance to serve you in the Legislature.

I believe it is essential to decrease the scope of State government and the number of regulations that control our lives. As Assemblyman, I was responsible for eliminating the cities and borough personal property taxes. Most people running for office already have their agenda in mind rather than listen to your problems and ideas. Stop using the PFD to run government, it's a hidden tax and no new taxes unless you the voters approve them. Young people facing many changes must be presented with fair, basic, and unbiased information. Stop teaching propaganda.

I understand our constitution and the rights it affords us. I will protect them to the best of my ability and treat all people fairly and equally. Your opinion and input are important to me. Before I push that button, I always make sure I understand how that decision will affect your future and life. You will be proud of my attendance record, my understanding of government. my integrity, my dedication, and my proven leadership ability.
