Position Statement

The Republicans vote the party line and when they win the corporations get great benefits. The Democrats vote for their party and when they win we get more government. This is because of the caucuses that give power to one party or the other. Who represents you? We could save a lot of money if our representatives voted for what was important to the people they represent. Every time I ask why the State over spent, the answer is because I had to go with the caucus. This leads to over spending. When was the last time the State spent less than the State income? I will focus on a budget that will not steal the state union retirements or the PFD. I believe that we need to start educating our children and not building up the school systems. The legislators have overspent consistently and what is there to show for it. Now they want the PFD, but it would do better in the hands of the people to stimulate our economy. It is also important to think about the Cook Inlet Energy problems. Finally, there is the Spenard quality of life. The homeless tend to take up a lot of the budget and we have increased crime. Our police have higher priorities than to address theft. For your vote, I will do my best to support all the members of the community and do what is best for the people of District 16. I thank you for your vote.
