Position Statement

I have never been involved in politics. I am a problem solver and systems engineer. I am a fabricator welder and fix the screw-ups of engineers. I do not seek power and wealth. I seek to end the destructive abuses then return to my daily job. I believe Climate issues are tools used to control the people. I observe government using fear to control and manipulate the people. The time has come to return Alaska to statehood. I witness office holders directly violate their oath of office every time they bring legislation to restrict arms in violation of Article 1 Section 19 and warrant removal. Those in concert are also in violation of their oath and warrant removal. Time to end the violations of the will of the people and hold violators accountable. Full D.O.G.E. audit of the State of Alaska. Remove Federal influence and return the power back to the people. Transform Boroughs to Counties and hold elections for county offices including sheriff. Juries of the people! Make the State Capitol more accessible to the people. End the financial abuses of the people's money and property. Remove office holders who do not serve the people and violate their oath of office for personal gain. Enforce the Alaska Constitution. Enforce the Bill of Rights. If the people elect me, I will serve the people and not the political establishment. Alaska first!
